Product Description

Hanlinrui Machinery is a professional Fuel Pipe Union manufactures and Suppliers from China Factory. There may be a lot of forging manufacturers out there, but not all forging manufacturers are alike. Hanlinrui professional expertise in manufacturing forging has been honed over the past 10+ years.

What is the process of forging?

Forging is a manufacturing process involving the shaping of a metal through hammering, pressing, or rolling. These compressive forces are delivered with a hammer or die. Forging is often categorized according to the temperature at which it is performed—cold, warm, or hot forging. A wide range of metals can be forged.

What is the difference between hot forging and cold forging?

Qingdao Hanlinrui Machinery Co., Ltd.
